REFERRED TO R. R. COMMISSION.

that the mayor and citizens and the railroad commission are trying to raise a little row because the C. N. & L. railroad has no passenger station at the Gervais street terminal. Whether the purpose is to make the C. N. & L. run its morning train into the Union station, or make it put up a passenger station at Gervais street or not, we do not know.

Really there is very little need of a passenger station at the Gervais street, and we are satisfied that the very great majority of the people who use this train would much rather have it stop at Gervais street without any further accommodations than to have to lose the time necessary to go around to the Union station. In fact, we do not believe there is a demand from the people who use this train for any changes or additions. It has served the people of the Dutch Fork for twenty-five years and the people who use giants of evil and who dare go up it are satisfied with it, and the commission would do well to let well enough alone. The train is always ready to receive passengers at least 25 or 30 minutes before the time to depart, and school. it is just as comfortable as a station would be, and then the passengers are on when they go down to the station and have no further trouble. And on the arrival of the train there is always a street car ready to receive the passengers, and hacks and automobiles and there is no need for a station then In fact, the traveler is saved at least an hour by getting off and on at Gervais. And a great many of the passengers on the morning and afternoon trains on this road get off and on at Gervais street.

If the railroad commission is really anxious to do something that will help and be an accommodation to the traveling public let them take up with the C. & W. C. railroad the matter of hauling the afternoon train from Columbia to Laurens on to Greenville, as it did for a long time. That would give the Greenville people the opportunity to come to Columbia in the morning and spend the day and return the same afternoon. That would help some and be a convenience to a great many traveling people and the public generally. Greenville will take this matter up and call the attention of the railroad commission to it. It may be that the commission does not know that this connection has been broken for about a year now.

If you have not secured your space in the anniversary edition of The Terald and News you had better do so at once, as the paper will be mailed out in a few days. This is going to be a great paper and you do not want to be left out. We are trying to see every one personally, but that will be a physical impossibility, and yet we want every one to know that we will be pleased to have an ad from him. And you can get it by calling at the office if we fail to see you.
